VOLUME 85
1953

PUBLISHERS
AMERICAN MEDICAL ASSOCIATION
CHICAGO 10, ILL.

CONTENTS OF VOLUME 85

JANUARY 1953. NUMBER 1

PAGE

Skeletal Maturational Progress of Children with Chronic Nutritive Failure: Effect of Dietary Supplement of Reconstituted Milk Solids. Tom D. Spies, M.D., Birmingham, Ala.; Samuel Dreizen D.D.S., Chicago; Richard M. Snodgrasse, Ph.D., Philadelphia; George S. Parker, D.D.S., and Catherine Currie, B.S., Birmingham, Ala. 1

Prolonged Obstructive Jaundice in Infancy: III. Liver Function Tests. David Yi-Yung Hsia, M.D., and Sydney S. Gellis, M.D., Boston 13

Crossed Laterality in Children: Report of Pediatric, Psychiatric, and Psychological Aspects of Three Cases. Morton Seldowitz, M.D., and Abraham B. Berman, Ph.D., Brooklyn.. 20

Coccidioidomycosis of Bone in Children. J. Dykes, M.D., Long Beach, Calif.; Lieutenant J. K. Segesman, United States Army, and J. W. Birsner, M.D., Bakersfield, Calif..... 34

Case Reports:

Hydranencephaly. John T. Olive, M.D., and James W. DuShane, M.D., Rochester, Minn. 43

Perforation of the Stomach in the Newborn: Report of Two Cases with Necropsy Findings. W. Wallace Greene, M.D., Kansas City, Mo., and Donald F. Gose, M.D., Springfield, Mo. 47

Society Transactions:

Chicago Pediatric Society 52

Obituaries:

Philip Charles Jeans, M.D. 66

Abstracts from Current Literature 68

News and Comment 116

Books 118

Directory of Pediatric Societies 124

FEBRUARY 1953. NUMBER 2

Thyrotropic Hormone in Infants and Children: Differentiation Between Primary and Hypopituitary Hypothyroidism. Donald E. Pickering, M.D., and Earl R. Miller, M.D., San Francisco 135

Trigger Thumb in Infants. J. Warren White, M.D., and William E. Jensen, M.D., Honolulu, T. H. 141

Migraine in Children: A Report of Fifty Children. George R. Krupp, M.D., and Arnold P. Friedman, M.D., New York 146

Transverse Myelopathy in Childhood. Richmond S. Paine, M.D., and Randolph K. Byers, M.D., Boston 151

Organic Phosphate Insecticide Poisoning: Report of Two Cases Due to Parathion with Recovery in One. Harrie R. Chamberlin, M.D., Chapel Hill, N. C., and Robert E. Cooke, M.D., New Haven, Conn. 164

FEBRUARY—*Continued*

PAGE

Case Reports:

Anterior Dislocation of First Cervical Vertebra Simulating Cerebral Birth Injury in Infancy. Eben Alexander Jr., M.D.; Richard Masland, M.D., and Carlton Harris, M.D., Winston-Salem, N. C. 173

Progress in Pediatrics:

Agenesis of the Lung: Report of a Case, with a Review of All Previously Reported Cases. A. Oyamada, M.D.; B. M. Gasul, M.D., and P. H. Holinger, M.D., Chicago 182

Obituaries:

Joseph Stiles Wall, M.D. 202

Abstracts from Current Literature 204

News and Comment 254

Books 255

MARCH 1953. NUMBER 3

Purpura in Infants and Children: Its Natural History. David H. Clement, M.D., New Haven, Conn., and Louis K. Diamond, M.D., Boston 259

Immaturity of Single Live Births According to Weight, with Particular Reference to Race. M. A. Taff Jr., B.S., and C. L. Wilbar Jr., M.D., Honolulu, T. H. 279

Prenatal Closure of the Interatrial Foramen. James G. Wilson, Ph.D.; Robert A. Lyon, M.D., Cincinnati, and Roger Terry, M.D., Rochester, N. Y. 285

Treatment of Bacterial Meningitis of Unusual Etiology and Purulent Meningitis of Unknown Origin. Mark H. Lepper, M.D.; Norman H. Blatt, M.D.; Paul F. Wehrle, M.D., and Harold W. Spies, M.D., Chicago 295

Case Reports:

Use of Aspiration Lung Puncture in Diagnosis of Idiopathic Pulmonary Hemosiderosis. Sydney S. Gellis, M.D.; John L. D. Reinhold, B.M., M.R.C.P., D.C.H., and Sidney Green, M.D., Boston 303

Neonatal Granuloma Venereum. Charles Waldo Scott, M.D.; Donald McCarthy Harper, M.D.; Robert S. Jason, M.D., and Elson B. Helwig, M.D., Washington, D. C. 308

Progress in Pediatrics:

Hypervitaminosis A: A Review with a Discussion of Vitamin A. Lieutenant Alfred G. Knudson Jr. (MC), United States Army Reserve, and Phillip Rothman, M.D., Beverly Hills, Calif. 316

Abstracts from Current Literature 335

News and Comment 388

Books 388

APRIL 1953. NUMBER 4

Use of Cortisone and Corticotropin (ACTH) in Treatment of Reticuloendotheliosis in Children. Murray H. Bass, M.D.; Samuel O. Sapin, M.D., and Horace L. Hodes, M.D., New York 393

Angiocardiography in Congenital Heart Disease Correlated with Clinical and Autopsy Findings: A Five-Year Clinical and Pathological Study of Thirty-Four Cases in Infants and Young Children out of a Series of Eleven Hundred Patients, and Four Hundred Twenty-Five Angiocardiograms. Benjamin M. Gasul, M.D.; Howard Weiss, M.D.; Egbert H. Fell, M.D.; Robert F. Dillon, M.D.; Don L. Fisher, M.D., and Carl J. Marienfeld, M.D., Chicago 404

APRIL—*Continued*

PAGE

Measles Encephalomyelitis. Max J. Fox, M.D.; Joseph F. Kuzma, M.D., and John D. Stuhler, M.D., Milwaukee 444

Nephrotic Syndrome in Children: Observations on the Clinical Course and the Influence of Sulfonamide and Antibiotic Therapy. Irving Philips, M.D.; Joseph K. Calvin, M.D., and Benjamin M. Kagan, M.D., Chicago 451

Effect of Hemopoietic and Other Agents on the Hydroxyphenyluria of Premature Infants. Harold M. Nitowsky, M.D.; Clifton D. Govan Jr., M.D., and Harry H. Gordon, M.D., Denver 462

Correspondence:

Physiological Availability of Vitamin A from Capsules. W. C. Martin, M.D., New York 481

Albert Edward Sobel, Ph.D., and Abraham Rosenberg, M.S., Brooklyn 482

Abstracts from Current Literature 484

News and Comment 508

Directory of Pediatric Societies 512

MAY 1953. NUMBER 5

Ovarian Agenesis (Congenital Aplastic Ovaries) in Children. Henry K. Silver, M.D., New Haven, Conn., and Charles Henry Kempe, M.D., San Francisco 523

Cystinosis: Report of Two Cases with Postmortem Examination. Herbert F. Jackson, M.D., and B. Earl Clarke, M.D., New York 531

Diphenhydramine (Benadryl) and Tripelennamine (Pyribenzamine) Intoxication in Children. D. Joseph Judge, M.D., and Kenneth W. Dumars Jr., M.D., Colorado Springs, Colo. 545

Case Reports:

Lymphosarcoma of the Cecum Causing Intussusception in a Nine-Year-Old Boy. John Erbes, M.D., and John S. Stehlin Jr., M.D., Milwaukee 551

Periarteritis Nodosa: Report of a Case of Apparent Recovery in a Nine-Year-Old Boy During Cortisone Therapy. John H. Dent, M.D.; Jack E. Strange, M.D.; Wallace Sako, M.D., Ph.D., and Dorothy J. York, M.D., New Orleans 556

Chronic Gastric Ulcer in Childhood: A Critical Analysis of the Literature with Report of a Case in an Eleven-Year-Old Boy. Walter M. Block, M.D., Cedar Rapids, Iowa 566

Galactosemia: An Unusual Case of Neonatal Jaundice. Donald Johns, M.D., Grand Rapids, Mich. 575

Obituaries:

Samuel Wolcott Clausen, M.D. 582

Lawrence Thomas Royster, M.D. 584

Abstracts from Current Literature 586

News and Comment 629

Books 631

JUNE 1953. NUMBER 6

Function Recovery Pattern in Acute Renal Failure Following Ingestion of Mercuric Chloride. S. A. Kaplan and Samuel J. Fomon, Cincinnati 633

Use of Sulfonamides and Penicillin to Prevent Recurrence of Rheumatic Fever: A Twelve-Year Study. Ella Roberts, M.D., Philadelphia 643

Erythema Nodosum. L. Isabel Booth, Toronto, Canada 648

JUNE—*Continued*

PAGE

Hemolytic Disease of the Newborn Due to ABO Incompatibility. H. G. Dunn, M.B., M.R.C.P., D.C.H., London, England 655

Experiences in Two Hundred Eighty-Nine Cases of Infantile Diarrhea in a Nutritionally Deficient Group of Infants. Abraham Friedman, M.D., Haifa, Israel 675

Clinical Study of Skin Rashes During the Newborn Period. Carl C. Fischer, M.D., Philadelphia 688

Bile Peritonitis in Infancy. John J. Byrne, M.D., and George T. Bottomley, M.D., Boston. 694

Hemophilic Condition in a Girl. Armand J. Quick, Ph.D., M.D., and Clara V. Hussey, M.S., Milwaukee 698

INDEX TO VOLUME 85

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries, and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

Abdomen
pain in children [abstract], 375
roentgenography: visualizing of organs after retroperitoneal insufflation and transverse axial stratigraphy [abstract], 376
tumors in infancy [abstract], 230
Abnormalities and Deformities: See also Retrolental Fibroplasia; and under names of organs and regions, as Heart
Bonnevie-Ullrich status [abstract], 212
congenital micrognathia with glossoptosis and microglossia associated with dextrocardia and heterotaxia [abstract], 213
embryopathies, with special consideration of (maternal) toxoplasmosis [abstract], 73
etiology of congenital malformation [abstract], 342
hereditary congenital anomalies of skeleton (dislocation of capitulum radii: dislocation, hypoplasia, or absence of patella) and nails [abstract], 74
hereditary transmission of physical defects in EMB family [abstract], 715
pathogenesis of multiple malformations [abstract], 715
unusual case of multiple congenital malformations [abstract], 212
Accidents
mortality from violence in childhood in Australia [abstract], 713
Acetylsalicylic Acid: See Salicyl Compounds
Acid: See under specific name, as Amino Acids
Acidosis
diabetic, management in children [Guest], 62
extreme, of renal origin [abstract], 620
Acrocephaly
acrocephalosyndactylia [abstracts], 73, 212
Acrodynia
in infant after application of mercurial ointment [abstract], 250
infantile (pink disease), review [abstract], 746
mercury, and dimercaprol [abstract], 503
subacute mercury poisoning caused by protiodide of mercury [abstract], 249
treated with benzazoline (Priscoline) [abstract], 249
in 2-month-old infant [abstract], 626
use of "Liquorpumpe" in Feer's disease [abstract], 625
ACTH: See Corticotropin
Actinomycosis
mandibular, in childhood [abstract], 724
Addison's Disease
case [abstract], 244
Adiposity: See Obesity
Adrenal Preparations: See Cortisone;
Adrenals
adrenogenital syndrome [abstract], 246
antidiuretic substance in blood of normal and adrenalectomized rats [abstract], 242
function in newborn [abstract], 717
function tests in children [abstract], 743
hyperplasia, congenital: effect of cortisone and compound B in infants with disturbed electrolyte metabolism [abstract], 624
hyperplasia: 2 cases with adrenal cortical insufficiency [abstract], 384
influence of stress stimuli on lymphatic tissue of adrenalectomized mice [abstract], 384
production of corticoids by rat adrenals in vitro [abstract], 622
saline hydration and diuresis after adrenalectomy [abstract], 623
Adrenocorticotropic Hormone (ACTH): See Corticotropin
Alexander, E., Jr.
Anterior dislocation of first cervical vertebra simulating cerebral birth injury in infancy, *173
Alimentary Tract: See Digestive System
Allergy
electroencephalitic study of allergic children [abstract], 250
infection and allergic child [Davis], 58
respiratory, in children, treatment by oral administration of dust and pollen extracts [abstract], 108
roentgen studies of allergic children with disturbances of pylorus resulting from food sensitivity [abstract], 109
Altitude
high: some biological normal variations of children in [abstract], 71
Amebiasis
in child [abstract], 359
in newborn infant [abstract], 599
rectoscopy in children [abstract], 359
rheumatoid arthritis and [abstract], 719
American Board of Pediatrics
examinations, 116, 510, 629
pediatricians certified in pediatric allergy by, 509
specialists certified by, 116, 508, 630
American Medical Association
Section of Pediatrics, program of annual session, 509
Amino Acids
and absorption of iron [abstract], 206
conversion of glucose to amino acids by brain and liver of newborn mouse [abstract], 484
effect of peptone and amino acid ingestion upon concentrations of tissue [abstract], 586
studies on metabolism and disposal of amino acid mixtures given intravenously [abstract], 587
Aminopyrine
toxicology [abstract], 253
Amithiozone: See Thiosemicarbazone
Amyotonia: See Myatonia
Anemia
aplastic, in siblings with multiple congenital anomalies [abstract], 85
childhood: importance of hematocrit values in classification [abstract], 92
Cooley's [abstract], 607
Cooley's: results of Coombs's test in chronic erythroblastosis of Cooley type and in subchronic erythroblastosis [abstract], 89
Cooley's, and subchronic erythroblastosis, cardiac disturbance: pathogenic and diagnostic significance [abstract], 88
erythroblastic: primary, of infant, metabolic aspects: behavior of total fatty acids, saturated and unsaturated, of blood [abstract], 590
hemolytic: acute idiopathic [abstract], 607
hyperchromic megaloblastic, in child [abstract], 91
hypochromic, and diaphragmatic hernia [abstract], 609
idiopathic Heinz body, apparent [abstract], 224
megaloblastic: citrovorum factor and folic acid in treatment in infancy [abstract], 728
megaloblastic: with relapses but without achylia gastrica in children [abstract], 608
megalocytic deficiency, cured by small amounts of fresh endive [abstract], 606
perniciosiform, in infant [abstract], 89
sickle cell [abstract], 727
sickle cell: clinical manifestations in children [abstract], 728
sickle cell: molecular disease [abstract], 86
sickle cell: studies on "in vivo" sickling and effect of certain pharmacological agents [abstract], 728
sickle cell: sulfhydryl content of normal hemoglobin and hemoglobin in [abstract], 729
treatment with trivalent iron in infants and children [abstract], 372
Anencephaly: See Brain, abnormalities
Anesthesia
brachial plexus block, in children [abstract], 109
in pediatric urology [abstract], 102

Anesthesia—Continued
relative merits of various techniques in childhood [abstract], 628
Aneurysm
aortic, Marfan's syndrome with [Traisman & Johnson], 706
mycotic, of thoracic aorta, rupture [abstract], 607
Angiocardiography: See Under Heart
Angioma
encephalofacial neuroangiomatosis [abstract], 492
Anomalies: See Abnormalities and Deformities and under names of organs and regions
Anoxia: See Oxygen, deficiency
Antiaris Toxicaria
toxicological study [abstract], 115
Antibiotics: See also Aureomycin; Chloramphenicol; Penicillin; Streptomycin
in childhood [abstract], 251
influence on nephrotic syndrome in children [Philips & others], *451
Antistreptolysin: See under Streptococci
Anus
construction of rectal sphincter and restoration of anal continence by transplanting gracilis muscle [abstract], 493
Aorta
aneurysm: See Aneurysm
coarctation: study of 70 cases with surgical exploration [abstract], 725
Apparatus
operating table for young infants [abstract], 626
Appendicitis
acute, in children [abstract], 374
Appointments, 117
Arachnodactyly
Marfan's syndrome with aortic aneurysm [Traisman & Johnson], 706
Arobon: See Carob
Arteries
pulmonary: absence, with hypertrophied bronchial arteries [abstract], 85
Arteriosclerosis
comparison of arteriosclerotic lesions produced in young and old rabbits by freezing aorta [abstract], 604
relationship of ACTH and cortisone to serum lipoproteins and atherosclerosis [abstract], 86
Arthritis: See also Rheumatic Fever
purulent (B. pyocyaneus) [abstract], 386
rheumatoid: and amebiasis [abstract], 719
rheumatoid: effect of ACTH therapy on serological reactions [abstract], 745
rheumatoid: effects of ACTH and cortisone on Still's disease [abstract], 387
rheumatoid; juvenile: corticotropin (ACTH) in treatment [abstract], 387
rheumatoid; juvenile: effect of corticotropin (ACTH) [abstract], 107
Ascariasis
epidemiology of trichuriasis and [abstract], 78
roentgen examination in [abstract], 359
Ascorbic Acid
in milk, stability at different stages of processing [abstract], 70
Asphyxia
of newborn [abstract], 215
of newborn, role of bronchoscopy in resuscitation [abstract], 344
Asthma
infection and allergic child [Davis], 58
Ataxia
cerebellar: in childhood [abstract], 239
Atelectasis: See Lungs, collapse
Atherosclerosis: See Arteriosclerosis
Aureomycin
in infections of newborn [abstract], 346

Banthine: See Methantheline
Banti's Syndrome
portography during operation for [abstract], 86
Barbital and Barbital Derivatives
physiological performance following hypnotic dose of barbiturate [abstract], 627
Bass, M. H.
Use of cortisone and corticotropin (ACTH) in treatment of reticuloendotheliosis in children, *393
BCG Vaccine: See under Tuberculosis
Behavior Problems
abnormal electroencephalogram as related to reading difficulty in children with disorders of behavior [abstract], 740
anticonvulsant drug therapy in children with abnormal electroencephalograms [abstract], 376
short term management of child behavior disorder [abstract], 740
Benadryl: See Diphenhydramine
Berman, A. B.
Crossed laterality in children: report of pediatric, psychiatric, and psychological aspects of 3 cases, *20
Beryllium
subcutaneous granuloma [abstract], 745
Bethanecol (Urecholine)
gastric response of normal children to [abstract], 228
Biedl-Laurence-Moon Syndrome [abstracts], 244, 385
Bile
pigments in stools of infants [abstract], 229
Biliary Tract
atresia, congenital: report of 3 cases, 2 occurring in one family [abstract], 613
bile peritonitis in infancy [Byrne & Bottomley], *694
calculi: cholelithiasis in children [abstract], 96
Biostatistics: See Vital Statistics
Birsner, J. W.
Coccidioidomycosis of bone in children, *34
Birth Injuries
fracture involving right temporomandibular articulations [abstract], 247
Bismuth
hepatitis and nephrosis due to soluble [abstract], 614
Bladder
exstrophy [abstract], 740
exstrophy: long term results of transplantations of ureters for [abstract], 242
roentgenography: tridimensional stratigraphic study after extraperitoneal insufflation [abstract], 498
Blatt, N. H.
Treatment of bacterial meningitis of unusual etiology and purulent meningitis of unknown origin, *295
Block, W. M.
Chronic gastric ulcer in childhood: critical analysis of literature with report of case in 11-year-old boy, *566
Blood
calcium: hypocalcemia in infancy [abstract], 486
cells: See Eosinophiles; Erythrocytes; Leucocytes
chemistry: analyses in first 20 hours of life [abstract], 76
circulation, fetal: angiocardiographic studies: preliminary report [abstract], 86
diseases: See Anemia; Erythroblastosis, Fetal; Hemophilia; Leukemia; etc.
fibrinolysis in children [abstract], 89
formation: action of sex hormones on hematopoiesis [abstract], 743
galactose: galactosemia and its relation to Laennec's cirrhosis: review of literature and presentation of 3 additional cases [abstract], 228
galactose: galactosemia unusual cause of neonatal jaundice [Johns], *575
galactose: lesions of galactose diabetes: pathologic observations [abstract], 586
groups: hemolytic disease of newborn due to ABO incompatibility [Dunn], *655
groups: iso-immunization in A B O system and morbus haemolyticus neonatorum [abstract], 216
hemoglobin: See Hemoglobin and Hemoglobin Compounds
lipoproteins of serum in infancy and childhood [abstracts], 370
plasma and erythrocyte chemistry of normal infant [abstract], 485
plasma by mouth in treatment of dystrophic infants [abstract], 486
plasma thromboplastin component (PTC) deficiency: new disease resembling hemophilia [abstract], 370
platelets, influence of histamine on qualitative activity, with especial reference to hemophiliac [Sanford & others], 52

Blood—Continued
platelets: new syndrome: Lobstein's disease with familial and hereditary thrombasthenia of Glanzmann [abstract], 371
platelets: transitory thromboasthenia [abstract], 609
proteins: estimation of serum protein concentrations [abstract], 589
proteins: studies on undernourished infants: protein fractions [abstract], 591
serum indican and serum xanthoprotein values in children [abstract], 589
sugar: chronic hypoglycemia and convulsions with dwarfism: observations with corticotropin (ACTH), cortisone, and thyroid [Steiner], 709
sugar: spontaneous hypoglycemia and hyperinsulinism in infants and children [abstract], 105
sugar: Staub effect in children: studies of blood sugar regulations by means of double and triple glucose tolerance tests [abstract], 592
volume and blood plasma: studies on undernourished infants [abstract], 592
Blood Pressure
high: See Hypertension
variations in hospitalized children [abstract], 224
Body Size
statistical somatometric study of 1,000 children between 0 and 14 years, by means of width-height index [abstract], 596
Bone Marrow
intravital study as hematological method of investigation [abstract], 93
Bones: See also under names of bones
changes in severe phosphorus deficiency of rat [abstract], 712
coccidioidomycosis in children [Dykes & others], *34
diseases: See also Osteomyelitis; etc.
dysplasia: Engelmann's disease (progressive diaphyseal dysplasia) [abstract], 246
dysplasia, polyostotic fibrous [abstract], 248
fragility: new syndrome: Lobstein's disease with familial and hereditary thrombasthenia of Glanzmann [abstract], 371
growth: skeletal maturational progress of children with chronic nutritive failure: effect of dietary supplement of reconstituted milk solids [Spies & others], *1
hyperostosis, infantile cortical [abstract], 247
ultimate site of skeletal deposition of strontium and lead [abstract], 335
Bonnevie-Ullrich Status: See Abnormalities and Deformities

CONTENTS OF VOLUME 86

JULY 1953. NUMBER 1

PAGE

Growth and Metabolism in Normal and Thyroid-Ablated Infant Rhesus Monkeys (Macaca Mulatta)

I. Growth and Metabolism in Normal Infant Rhesus Monkeys (Macaca Mulatta). Donald E. Pickering, M.D.; Francis Scott Smyth, M.D., San Francisco; Gertrude van Wagenen, Ph.D., New Haven, Conn., and Delbert A. Fisher, M.D., San Francisco 1

II. Growth and Metabolism in Thyroid-Ablated Infant Rhesus Monkeys (Macaca Mulatta). Donald E. Pickering, M.D., and Delbert A. Fisher, M.D., San Francisco 11

Congenital Sarcoma of the Foot: Case Report and Review of Literature. John J. Fahey, M.D., and John A. Bollinger, M.D., Evanston, Ill. 23

Primary Myocardial Disease in Infancy and Childhood. Harold D. Rosenbaum, M.D.; Alexander S. Nadas, M.D., and Edward B. D. Neuhauser, M.D., Boston 28

Pulmonary Edema Produced by Intratracheal Injection of Milk, Feeding Mixtures, and Sugars. Thomas J. Moran, M.D., Pittsburgh 45

Case Reports:

Coccidioidomycosis in Infants. Thomas E. Townsend, M.D., and Robert W. McKey, M.D., Bakersfield, Calif. 51

Osteochondritis Deformans Coxae Juvenilis: Familial Demonstration. W. R. Hamsa, M.D., and L. S. Campbell, M.D., Omaha 54

Society Transactions:

Chicago Pediatric Society 60

Obituaries:

Philip Van Ingen, M.D. 68

Abstracts from Current Literature 70

INDEX TO VOLUME 86

The asterisk (*) preceding the page number indicates an original article. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book reviews, Obituaries, and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O, and S, respectively.

Abdomen
musculature: absence, with genitourinary anomalies and deficiency in pelvic autonomic nervous system [Henley & Hyman], *795
musculature: congenital deficiency, with associated genitourinary abnormalities [abstracts], 806, 808
pain, recurrent, in childhood, pathogenesis [abstract], 383

Abelson, N. M.
Rh antigenicity of gamma globulin, 621
Spectrophotometric absorption patterns in erythroblastosis fetalis, 461

Abnormalities and Deformities: See also under names of organs and regions
acrocephalosyndactyly [abstract], 808
congenital absence of abdominal muscles associated with genital urinary malformation [abstract], 808
excessive intake of vitamin A as cause of congenital anomalies in rat [abstract], 805
rare combined malformations [abstract], 806
Bonnevie-Ullrich syndrome [abstracts], 219, 521
Bonnevie-Ullrich syndrome in newborn infant [abstract], 679
congenital: enteroumbilical fistula due to patent vitelline duct [abstract], 678
congenital: excessive intake of vitamin A during pregnancy as cause in rat [Cohlan], 348
congenital: origin [abstract], 363
treatment of cleft lip and palate in South Africa [abstract], 806

Achondroplasia: See also Dyschondroplasia
chondrodystrophy and mental defect [abstract], 252

Acrodynia
etiology as result of sensitivity to mercury [abstract], 539
following ingestion of mercurial ointment [abstract], 254
possible relations to modifications of vitamin B [abstract], 254

Acids: See also under specific names
fatty, unsaturated blood levels as indication of nutritional requirment for essential fatty acids in children [Hansen & Wiese], 322

Adams, F. H.
Diagnosis and treatment of patent ductus arteriosus in infancy, 624
Endocardial fibroelastosis: report of unusual case with impaired ability to fabricate serum proteins, *186

Adams, P., Jr.
Diagnosis and treatment of patent ductus arteriosus in infancy, 624

Addison's Disease
developing in boy with hypoparathyroidism [Papadatos & Klein], 336

Adenoids
intelligence of children with, as shown by Terman-Merrill type L test of 1937 [abstract], 831

Adolescents
in trouble [abstract], 802

Adoption: See Child Welfare

Adrenal Preparations: See also Cortisone
action of desoxycorticosterone in premature and congenitally debilitated infants [abstract], 677
comparative activities of 17-hydroxy-11-desoxycorticosterone and 11-desoxycorticosterone [abstract], 531
effects of adrenocortical extract on renal function in hypophysectomized rats [abstract], 251

Adrenal Preparations—Continued
effects of adrenocortical extracts on bone marrow eosinophiles of mice [abstract], 103
effect of desoxycorticosterone acetate on electrolyte metabolism in normal man [abstract], 251
quantitative method for bioassay of effect of adrenocortical steroids on mineral metabolism [abstract], 104

Adrenals
cortex: hyperfunction in childhood: report of case with adrenocortical hyperplasia and testicular adrenal rests [abstract], 106
cortex: relationship of corticoid excretion to ovarian hormones in guinea pig [abstract], 837
disease, mixed of infancy [abstract], 106
disease: urinary dehydroisoandrosterone in normal men and women and in [abstract], 103
function: effect of ascorbic acid administration on [Klein & Papadatos], 656
hemorrhage: arterenol in treatment of acute meningococcemia with shock (Waterhouse-Friderichen Syndrome) and evaluation of adrenocortical function [abstract], 812
hormones: circulating, in children in health and disease [Klein & others], 491
hormones: circulating, in children with endocrine and other disorders [Kelley & Ely], 333
hyperplasia: colorimetric fractionation of urinary ketosteroids in congenital: induction of qualitative changes by treatment with cortisone and hydrocortisone [Sobel & others], 661
tumors: functioning in childhood: consideration of diagnosis, surgical approach, and postoperative management [Sobel & others], *733
tumors: histochemical demonstration of ketosteroids in adrenocortical tumors with or without associated Cushing's syndrome [abstract], 106
water excretion in hypophysectomized rats before and after adrenalectomy [abstract], 105

Adrenocorticotrophic Hormone: See Corticotropin

Adrenogenital Syndrome
with hypertension, treated with cortisone [abstract], 111

Aerosols
completely automatic Miller aerosol device [Trossman], *436
nontoxic detergent for aerosol use in dissolving viscid bronchopulmonary secretions [abstract], 380
trypsin, in respiratory complications of bulbar poliomyelitis [Varga & Wild], *273

Afibrinogenemia: See Blood, fibrin

Age
influence on resistance of rabbits to lethal effect of Gram-negative bacterial toxin [Smith & Thomas], 481

Albers-Schönberg Disease: See Osteopetrosis

Aldrich, R. A.
Experimental production of porphyria in rat, 486
Preliminary observations on plasma protein changes in nephrotic children treated with 10% salt-free dextran and gelatin, 653

Alexander, H. E.
Application of recent advances in treatment of tuberculous meningitis, 623
Nature of Hemophilus influenzae cell through which heritable changes are induced by desoxyribonucleic acid, 476

Alimentary Tract: See Digestive Tract

Alkalosis
role of potassium in prevention [Cooke & others], 611

Alkavervir
treatment of hypertension in acute glomerulonephritis: clinical report [Kreidberg & Baty], 616

Allen, F. H., Jr.
Studies on erythroblastosis due to ABO incompatibility, 464

Allergy
diarrhea of allergic origin: review [Rothman], *201
dissimilar allergic disease in identical twins: study of psychosomatic aspects [abstract], 537
exudative allergic tuberculous processes in infants [abstract], 689
and hepatic dysfunction, clinical studies as to relation [abstract], 539
to human and bovine tuberculin in children [abstract], 689
infectious [abstract], 536
intestinal [abstract], 255
observations on vitamin A absorption in allergic celiac syndrome [Johnstone & McCoord], 651
pediatric, postgraduate course in, 115
serum neuritis [abstract], 368
use of cow's-milk substitutes in infancy with special reference to subsequent development of allergic disease [Johnstone & Glaser], 632

Amebiasis
clinical report in infants under one year of age [abstract], 686
with intestinal perforation and peritonitis [abstract], 820

American Academy for Cerebral Palsy, 541

American Board of Pediatrics
examinations, 262, 841
pediatricians certified in pediatric allergy by, 113
specialists certified by, 112 261, 840

American Pediatric Society, 114

Amino-Aciduria: See Urine, amino acids

Amino Acids
metabolism in patients with acute leukemia [abstract], 827
minimal requirement of infants [Snyderman & others], 324
tonic containing amino acid radicals: clinical and therapeutic indications for use [abstract], 213
use in pediatrics [abstract], 668

Aminotic Fluid
protein-free and purified, as equivalent of biological ultrafiltrate: therapeutic possibilities [abstract], 111

Amyotonia: See Myatonia

Andelman, M.
Congenital absence of sternum, 61

Androgens
glycostatic effect of testosterone on perineal muscles of rat [abstract], 105

Anemia
aplastic (chronic erythroblastic phthisis): and cortisone [abstract], 234
chronic: analysis of factors relating to maintenance of hematopoietic equilibrium in [Smith & others], 631
Cooley's: electrophoretic study of hemoglobin in [abstract], 694
hemolytic, acquired: extended observations of patient treated with corticotropin and cortisone [abstract], 236
hemolytic, idiopathic acquired: ACTH and splenectomy in [abstract], 234
hypochromic, of infants: use of ferric and ferrous iron in prevention [Niccum & others], *553
hypoplastic, with multiple congenital defects (Fanconi syndrome) [abstract], 81
in malnutrition [abstract], 801
pernicious: nitrogen and phosphorus metabolism during vitamin B_{12}-induced remission [abstract], 234
of premature infant: response to iron medication: 2-year study [abstract], 361
of prematurity: fetal and adult hemoglobins in [Schulman & Smith], 354
renal function in [Bruck], 511
sickle-cell: effect of age (maturation) on incidence of sickling phenomenon [Scott & Freeman], 629
sickle-cell: impairment of urinary concentration in [Kunz & others], 512
sickle-cell: impairment of urinary concentration ability, or "pitressin-resistance," in children with [McCrory & others], 512
sickle cell and other chronic anemias: cerebral circulation and metabolism, with observations on effect of oxygen inhalation [abstract], 233
sickle-cell: and tuberculosis [abstract], 525

Anencephaly: See Brain, abnormalities

Anesthesia
effects of various types of analgesia and anesthesia on newborn [abstract], 809

Anesthesia—Continued
general: common hazards for tonsillectomy and adenoidectomy [abstract], 831
aerosol: new bronchographic technique employing [abstract], 695
relationship to postoperative personality changes in children [Eckenhoff], *587

Anodontia: See Teeth, absence

Anoxia
anoxic syndrome of newborn [abstract], 222

Antibiotics
nebulized: use in treatment of whooping cough [abstract], 814
in vitro experiments of clinical application of streptomycin and penicillin combinations [abstract], 259

Antisepsis and Antiseptics
virucidal activity of some common surface antiseptics with special reference to poliomyelitis [Faber & Dong], 469

Anus: See also Rectum

Aorta
coarctation at level of diaphragm treated successfully with preserved human blood vessel graft [abstract], 692
thoracic coarctation: signs demonstrable by conventional roentgenography [abstract], 693
position of aortic arch and descending aorta: roentgenologic signs in childhood [abstract], 378

Aphasia
congenital: anatomical and physiological approach [abstract], 528

Apnea
neonatorum, effect on intellectual development [abstract], 73

Apparatus
completely automatic Miller aerosol device [Trossman], *436

Appendectomy
effect in surgical treatment of intussusception in infants [Richter & Silver], *184

Appendicitis
acute, in children [abstract], 526
acute: further reduction in mortality in children [abstract], 525
acute, in infants and children [abstract], 92
acute, in infants: 15-year study [abstract], 88
during first 2 years of life: report on 21 cases and review of 447 cases from literature [abstract], 88

Appleton, R.
Some observations on biology of acute leukemia in children, 661

Appointments
Goldbloom, Alton, 115
Kumm, Henry W., 701
Ross, Alan, 115

Apt, L.
Melena neonatorum: swallowed-blood syndrome, 639
New technique for transfusion of infants and children with use of plastic equipment, 626

Arey, J. B.
Relationship between progressive muscular atrophy of spinal origin and amyotonia congenita, 619

Ariboflavinosis: See Riboflavin

Arterenol
in treatment of acute meningococcemia with shock (Waterhouse-Friderichsen Syndrome) and evaluation of adrenocortical function [abstract], 812

Arteries
postnatal structural changes in intrapulmonary arteries and arterioles [abstract], 832

Arthritis
rheumatoid, juvenile: cortisone and corticotropin in [abstract], 682
from Salmonella typhimurium [abstract], 818

Arthrogryposis
multiplex congenita [abstract], 536

Ascites
chylous, in infancy [abstract], 91

Ascorbic Acid
deficiency, relation to metabolism of folic acid compounds: experimental megaloblastic anemia and scurvy in monkey [abstract], 517
effect of administration on adrenal function [Klein & Papadatos], 656

Aspartic Acid
glutamic acid, proline, and tyrosine content of meat [abstract], 799

Asphyxia
risk of death from asphyxiation in measles encephalitis [Bendz & Engström], *772
fetal, and heart sound [abstract], 523
neonatorum [abstract], 523

Asterol
dihydrochloride: convulsions following use [abstract], 839
dihydrochloride: neurotoxic symptoms following use [abstract], 839
toxic encephalopathy occurring during topical therapy with [abstract], 838

Asthma
bacterial-allergic, probable, in children and its treatment [abstract], 110

Ataxia
acute, of Leyden-Westphal [abstract], 97

Atelectasis: See Lungs, collapse

Athrepsia
infantile, pathogenesis [abstract], 800

Atomic Bomb
anomalies occurring in children exposed in utero in Hiroshima [abstract], 363
study of outcome of pregnancy in women exposed in Nagasaki [Yamazaki & others], 345

Atrophy
muscular, of spinal origin: relationship between amyotonia congenita and [Arey & Baird], 619

Audiology Center
standard for, 390

Aufranc, W. H.
National policies relative to distribution of gamma globulin, *441

Aureomycin: See Chlortetracycline

Autism
and schizophrenia: clinical manifestations in childhood [abstract], 835

Awards
Potter, Edith, 701
Wilcox, Herbert B., 701

Bacillus Parapertussis: See Whooping Cough

Bacteria
Gram-negative: factors involved in production of tissue damage by endotoxins derived from [Good & others], 473
Gram-negative: influence of age on resistance of rabbits to lethal effect of toxin [Smith & Thomas], 481
nosocomial infections with reference to airborne and dustborne [abstract], 666

Baird, H. W., III
Cerebral blood flow and cerebral oxygen consumption in infants and children, 663
Relationship between progressive muscular atrophy of spinal origin and amyotonia congenita, 619

Bain, H. W.
Gastrointestinal lavage in management of hyperpotassemia associated with kidney failure, 657

Baker, R. F.
Observations in chronic nephrotoxic serum disease in rats utilizing renal biopsy and electron microscopy, 628

Banti's Syndrome
in children and value of splenectomy in view of new surgical vascular techniques [abstract], 82

Barbital and Barbital Derivatives
effect of sodium pentobarbital on toxicity of certain antihistamines [abstract], 538
microchemical method for demonstration of barbiturates in clinic [abstract], 259

Barnett, H. L.

statistics regarding neoplasms observed in children's hospital of Brescia during years 1942-1951 [abstract], 257

Twins
dizygotic: chondrodysplasia (achondroplasia) in one [Slungaard & Harris], *788

Typhoid
epidemiological and therapeutic considerations of epidemic among children [abstract], 819
observations of 56 cases treated with vaccine and chloramphenicol [abstract], 818
and paratyphoid, changes of protein in [abstract], 374
perforation of gallbladder as complication of [abstract], 821
peritonitis due to perforation in, conservative treatment [abstract], 76
treatment with Terramycin [abstract], 820

Ulcer
perforated gastric, manifested by hematemesis in 8-week-old infant [abstract], 696

Ullrich-Bonnevie Syndrome: See Abnormalities and Deformities

University of Minnesota
continuation course in child psychiatry, 841
continuation course in pediatrics, 700

Urethra
stenosis in young girls: cause of recurrent infection of urinary tract [abstract], 530

Urinary Tract
uropathy in infancy: clinical cases [abstract], 101

Urination
incontinence: enuresis as psychiatric problem [abstract], 99
incontinence: enuresis and toilet training [abstract], 100

Urine
amino acid constituents of normal: chromatographic investigation [abstract], 530
amino acids: new findings on diagnosis and clinical aspects of chronic amino-aciduria with storage of cystine [abstract], 101
concentration: impairment of ability, or "pitressin-resistance," in children with sickle-cell anemia [McCrory & others], 512
concentration: impairment in sickle-cell anemia [Kunz & others], 512
dehydroepiandrosterone in premature infants [Eagle & Lowe], 654
excretion of lead in children: diagnostic application [Byers & others], 623
influence of dextran on dilution of plasma and excretion of urine [Olive & others], 665
oxalates: possible "inborn error of metabolism" with nephrolithiasis and nephrocalcinosis due to calcium oxalate as predominating features [abstract], 530

Urine Ketosteroid
colorimetric fractionation in congenital adrenal hyperplasia: induction of qualitative changes by treatment with cortisone and hydrocortisone [Sobel & others], 661

Vaccination: See also Smallpox Vaccination
encephalomyelopathy during variola vaccination reaction [abstract], 685
primary tuberculous inoculation of ear lobe: report of unusual case and review of literature [abstract], 688

Vaccine: See also Poliomyelitis
diphtheria-tetanus-pertussis: role as inflammatory and localizing agent [Ziegler & Klein], 642

Vagina
hydrocolpos in infancy and childhood [abstract], 100

Van Ingen, Philip
obituary, 68

van Wagenen, G.
Growth and metabolism in normal and thyroid-ablated infant rhesus monkeys (Macaca mulatta): growth and metabolism in normal infant rhesus monkeys, *1
Growth and metabolism in normal and thyroid-ablated infant rhesus monkeys (Macaca mulatta): iodine metabolism in normal and thyroid-ablated infant rhesus monkeys, *574

Varco, R. L.
Diagnosis and treatment of patent ductus arteriosus in infancy, 624

Varga, C.
Aerosol trypsin in respiratory complications of bulbar poliomyelitis: report of case, *273

Varicella: See also Chickenpox
vesicle fluids, propagation in tissue cultures of cytopathogenic agents apparently derived from [Weller & Witton], 644

Veriloid: See Alkavervir

Viomycin
blood, spinal fluid, and urinary levels [abstract], 258
and streptomycin: antibiotic treatment of osteoarticular tuberculosis intra-arterially with [abstract], 690

Virus
infections, inflammations in embryo and fetus in experimental [abstract], 364
infections: laboratory diagnosis of virus and rickettsial infections [abstract], 816
as primary plasmacytogenic agent in brain tissue [abstract], 686

Vita, M.
Role of potassium in prevention of alkalosis, 611

Vitamins
A: in allergic celiac syndrome [Johnstone & McCoord], 651
A: comparative toxicity of aqueous and oily preparations [abstract], 360
A: deficiency, latent and beginning keratomalacia in infants, examination of epithelium for [abstract], 216
A: deficiency, unusual manifestations in 5½-month-old baby [abstract], 360
A: excessive intake during pregnancy as cause of congenital anomalies in rat [Cohlan], 348
A: influence of age, strain, castration and estrogens upon hepatic stores in mouse [abstract], 670
A: poisoning [abstract], 670
A: role of reticuloendothelial system in cholesterol metabolism and [abstract], 667
A: 2 cases of acute hydrocephaly from massive doses [abstract], 673
A: water-soluble, absorption [abstract], 215
B: peculiar ocular manifestation of ariboflavinosis [abstract], 667
B: study of discrepancy in thiamine content of meat as measured by thiochrome and rat growth methods [abstract], 670
B_6: treatment of flaccid paresis and atony of muscles in childhood with [abstract], 835
B_{12}: in chronic nutritional disturbances [abstract], 215
B_{12}: effect of dietary Aureomycin (chlortetracycline) upon intestinal synthesis in rat [abstract], 518
B_{12}: effect on growth, kidney hemorrhage, and liver fat in rats fed purified diets [abstract], 671
B_{12}: effect in malnourished infants [abstract], 674
B_{12}: effect on minimal nitrogen requirement of infants [Kaye & others], 326
B_{12}: and folic acid in milk diets [abstract], 671
B_{12}: storage and elimination in rat [abstract], 672
B_{12}: effect on growth, kidney hemorrhage, and liver fat in rats fed purified diets [abstract], 671
C: See also Ascorbic Acid
C: daily determination of plasma, serum and white cell-platelet ascorbic acid in relationship to excretion of ascorbic and homogentisic acids by adults maintained on controlled diet [abstract], 671
D: effect of diets of varying calcium-to-phosphorus ration and of vitamin D on serum citrate levels in newborn during first week [Gittleman & others], 664
D: resistant rickets (refractory rickets) [abstract], 670
E: availability in newborn infant [abstract], 367
K-tetanus toxin complex in therapy of poliomyelitis [abstract], 685
T (Goetsch): in dystrophic and atrophic infants [abstract], 673
T (Goetsch): effect on children with development retardation and underweight [abstract], 802
T: and prematurity [abstract], 806
T: treatment with, critical remarks [abstract], 215

Vitelline Duct
patent: congenital entero-umbilical fistula due to [abstract], 678
patent omphalomesenteric duct [abstract], 88

Vomiting
psychogenic in children [Laybourne], *726

Vulvovaginitis
primary herpetic: report of case; isolation and identification of herpes simplex virus [abstract], 530

Wainerman, B.
Treatment and prevention of epidemic infantile diarrhea associated with Escherichia coli 0111 by use of chloramphenicol and neomycin, 350

Wake, E. J.
New technique for transfusion of infants and children with use of plastic equipment, 626
